## **Additional Warranty Policy for Imported Products**

18 June 2019

Dear valuable customer,

We would like to inform you that Ranger RV Supplies are unable to warrant any parts or products which have been imported or purchased directly from overseas. Any warranty claims must be reviewed by the original supplier as they are a different business entity.

Warranty requests must be lodged with the company which your products have been supplied from. If the products were not purchased from Ranger RV Supplies then we will not be able to assist you with any warranty claims due to no evidence of trade.

This additional policy does not affect any customers who trade directly with Ranger RV Supplies.

Thank you for your understanding.  
Ranger RV Supplies
